Education

- BS** **University of Thessaly**, Computer Science Sept 2017 – Jul 2025
- GPA: 6.33/10.0
 - **Thesis:** Developed a web-based **Assurance Modeler Platform** using HTML, CSS, JavaScript, and Tailwind CSS to support the creation and visualization of structured assurance cases. Applied software engineering principles to design a modular, maintainable architecture. Implemented interactive modeling features, a user-friendly interface, and responsive layouts. Worked with front-end technologies such as JavaScript modules, DOM manipulation, and custom styling to deliver a lightweight, browser-based tool for assurance case management.

Experience

- Netmechanics S.A.**, Customer Care (Internship) Heraklion, Crete
Sep 2023 – Feb 2024
- Assisted clients with technical and service-related issues using CRM tools
 - Reported recurring issues and collaborated with developers to improve workflows.
 - Documented customer requirements contributing to application improvement discussions.
 - Strengthened communication, teamwork, and problem-solving skills in a fast-paced environment

Projects

- Laravel CMS Foundation** - In Progress
- Developed a scalable and reusable foundation for content management by implementing the complete CRUD workflow, from RESTful routing and controller logic to the front-end Blade views.
 - **Technologies:** Laravel 11, PHP 8.3, MySQL, Eloquent ORM, Blade, Composer, Git, NPM
- github.com/NikosPap505/Laravel-CMS-Foundation.git 

Technologies

Frontend: JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Blade
Backend: PHP, Laravel, Node.js (Basic)
Databases: MySQL
Tools: Git, GitHub, NPM, Artisan CLI
